

Improving Health Services Performance by using Structural Funds

GOAL OF THE COURSE

EUREGIO III supports the innovative approach of using Structural Funds for health. The general objective of the project is to identify & share good practice and lessons learned for the **effective use of structural funds** for health & help reduce health inequalities among EU regions. It is a key resource to help Member States, regional & local authorities and actors to develop, apply & implement Structural Funds projects for health gain.

TARGET GROUPS

Potential participants of the course are policy makers and decision makers on the national and regional level; health planners; national and municipal representatives; members of development agencies; participants of national, regional and local development projects; executive managers, clinical and financial directors of health care institutions; policy and technical experts from relevant fields (systems designers, architects, economists, technology advisors, etc.).

HOSPITAL TOUR

We would like to invite the participant of the Master Class to visit a well know hospital in Lyon. The tour will showcase a newly built hospitals in the city. During the tour we will study some elements of the health infrastructure development and we will observe the complexity of hospital building project.

The fourth **EUREGIO III Master Class** Programme on Health investments in Structural Funds is based on reliable and robust knowledge.

This is a collaborative effort of the EUREGIO III project (led by Health ClusterNET), the **Health Services Management Training Centre, Semmelweis University Budapest**) (Master Class coordinator) and the Institut de Formation et de Recherche sur les Organisations Sanitaires et Sociales et leurs réseaux Lyon, to provide high quality learning experience for health sector managers, policy makers and government officials from Europe.

This Master Class programme arises from the project EUREGIO III which has received funding from the European Union, in the framework of the Public Health Programme.

EUREGIO III supports the innovative approach of using Structural Funds for health. The general objective of the project is to identify & share good practice and lessons learned for the effective use of structural funds for health & help reduce health inequalities among EU regions. It is a key resource to help Member States, regional & local authorities and actors to develop, apply & implement Structural Funds projects for health gain.

COST OF THE MASTER CLASS

The tuition fee of the course is 210 EUR. A reduced tuition fee (200 EUR) can be obtained in the following cases:

- early application (deadline is 16th of August)
- two or more persons apply from the same institution.

This fee includes tuition, course materials, hospital tour, coffee breaks and lunch during the days of the training.

Master Class dinner

On the first evening of the Master Class, the dinner will be held in one of the famous restaurant in Lyon. Participation in the conference dinner is an optional extra to the programme and is not included in the registration fee.

The fee of the Master Class dinner is 50 EUR

DEADLINE FOR APPLICATION

To secure a place for the training, applicants shall complete the attached application form and return it back to us no later than 31st August 2011.
